25 Case CTA Mentor

CTA Mentor is a software program designed to coach you through the interpretation of over 9,000 endpoints found in a Cardiac CTA. Using this software is equivalent to having an expert personally tutor you through each case. All cases include expert reviews and many have cath correlations. You have the ability to email the lecturer and debate the case with other students via message board.

Recommended for:

- Those who need additional mentored cases toward Level 2 or Level 3 certification
- Those who need to refresh their CTA reading proficiency
- Those who need to prepare for a Board Exam

Includes:

- 25-100 cases of varying pathology
- Mentor self-scoring software
- Cath correlations*
- Live patient videos*
- Lecture on Buttonology (Vital Images or TeraRecon)
- Lecture on Review Method
- 8 CME credits

    *not available on all cases
    Requirements: Vital Images or TeraRecon workstation
