

# HANDS-ON PERIPHERAL VASCULAR CTA LEVEL 2 COURSE

**NEW ORLEANS, OCTOBER 29-30, 2010**

*Featuring a Systematic Review System*

## Course Details

Learn our systematic review methodology for peripheral vascular CTA in this 50 hour course with only two days in New Orleans.

During this onsite session, you will review a wide variety of peripheral vascular pathology. Following your hands-on training, you can complete as many as 100 additional cases using our specialized interactive training software.

In total, you will review up to 150 cases of carotid (25%), Abdominal (20%) Pre and Post EVAR (10%) Renals and Mesenterics (10%) and Run-off (45%). This program is designed to exceed the standards for peripheral vascular CTA competency that have been issued by the ACC.

## Highlights

### Didactic Topics for Carotids, Thoracic, Abdominal, Runoff studies:

Extensive review of anatomy, clinical indications, diagnostic modalities, treatment, acquisition, case examples, CTA in planning vascular procedures, workstation buttonology, systematic review method for each area, and reporting.

### Hands-On Training:

- One physician per workstation
- Systematized reading approach that helps improve clinical accuracy and reduce reading time

### Interactive Software Training System:

- Individualized Mentoring program
- Minimize time away from your practice
- Large library of PVD cases with diverse pathology with the option of reviewing more cases if desired

• Meets ACC competency guidelines

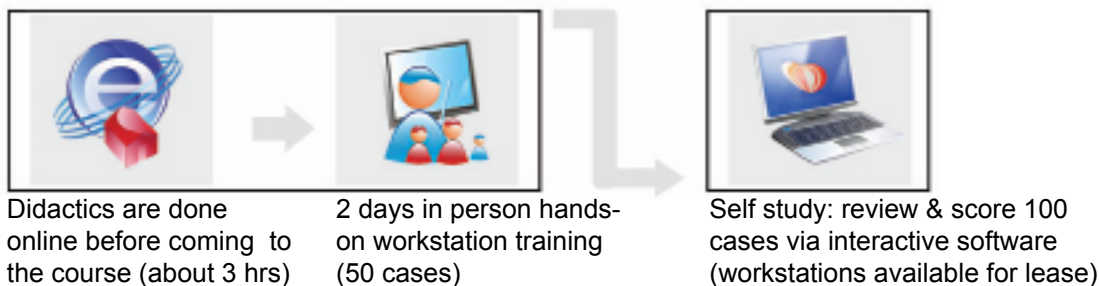

• 1:1 physician to workstation ratio

• Level 3 faculty leading all classes

• Earn up to 50 CMEs

• 150 mentored cases

• Learn on Vital Images workstations

## Faculty

### Peter Fail MD, Interventional Cardiologist, FACC

Dr. Fail is the director of cardiac catheterization laboratories, interventional research and CT imaging for Cardiovascular Institute of the South (CIS).

### Want Us to Train at Your Clinic?

We regularly perform a 3 day (often Fri-Sun) Level 2 training session at various imaging sites around the country. Please contact us for more information about arranging a course in your city.

### About CVCTA Education

CVCTA Education is an independent, physician-owned and operated company dedicated to high quality education in the cardiac imaging field. We are actively developing new educational, research and reporting tools that work to ensure a responsible use of imaging technology. We are not owned by a large commercial interest. As a result, we pride ourselves on providing unbiased medical information and honest reviews of cardiac imaging strengths and limitations.
