

HANDS-ON PERIPHERAL VASCULAR CTA LEVEL 2 COURSE

NEW ORLEANS, OCTOBER 29-30, 2009

Featuring a Systematic Review System

Course Details

Learn our systematic review methodology for peripheral vascular CTA in this 50 hour course with only two days in New Orleans.

During this onsite session, you will review a wide variety of peripheral vascular pathology. Following your hands-on training, you can complete as many as 100 additional cases using our specialized interactive training software.

In total, you will review up to 150 cases of carotid (25%), Abdominal (20%) Pre and Post EVAR (10%) Renals and Mesenterics (10%) and Run-off (45%). This program is designed to exceed the standards for peripheral vascular CTA competency that have been issued by the ACC.

Highlights

Didactic Topics for Carotids, Thoracic, Abdominal, Runoff studies:

Extensive review of anatomy, clinical indications, diagnostic modalities, treatment, acquisition, case examples, CTA in planning vascular procedures, workstation buttonology, systematic review method for each area, and reporting.

Hands-On Training:

- One physician per workstation
- Systematized reading approach that helps improve clinical accuracy and reduce reading time

Interactive Software Training System:

- Individualized Mentoring program
- Minimize time away from your practice
- Large library of PVD cases with diverse pathology with the option of reviewing more cases if desired

• Meets ACC competency guidelines

• 1:1 physician to workstation ratio

• Level 3 faculty leading all classes

• Earn up to 50 CMEs

• 150 mentored cases

• Learn on Vital Images workstations

Faculty

Tony DeFrance MD, *Interventional Cardiologist, Associate Professor Stanford University, SCCT Board of Directors*

Peter Fail MD, *Interventional Cardiologist, FACC*

John Lesser MD, *Interventional Cardiologist, FACC, SCCT Board of Directors*

Rob Schwartz MD, *Interventional Cardiologist, FACC, Founding Member SCCT*

Tuition
\$3950

This training course is designed for cardiologists and radiologists who desire an in-depth knowledge of peripheral CTA

Prerequisite: Level 2 cardiac CT training

NOTE:

This class immediately follows a 3-day Cardiac CT class (October 26-28, 2009, Monday-Wednesday). Therefore, if you are **not certified in CTA**, you can be trained in **both Cardiac and PV-CTA in just 5 days**.

CTA Mentor self-study software requires access to a workstation. Workstations are also available for lease for home/clinic training purposes.

About CVCTA Education

CVCTA Education is an independent, physician-owned and operated company dedicated to high quality education in the cardiac imaging field. We are actively developing new educational, research and reporting tools that work to ensure a responsible use of imaging technology. We are not owned by a large commercial interest. As a result, we pride ourselves on providing unbiased medical information and honest reviews of cardiac imaging strengths and limitations.
